DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claims 1 and 9 are objected to because of the following informalities: in claim 1, line 2, it appears that a word is missing between "wherein" and "is"; and in claim 9, line 4, it appears that "rotatable" should be changed to ---rotatable---. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 3654

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 1 recites the broad recitation "A winch", and the claim also recites "particularly for driving an umbrella" which is the narrower statement of the range/limitation.

Claim 12 is indefinite because of the broad recitation of "a stop" and the narrower recitation of "preferably a nut".

Claims 1, 11, 22 and 23 are indefinite because of the use of "assigned". What is meant by, for example in claim 1, "said stop being assigned to the rope drum"?

With respect to claim 9, line 5, the recitation "the housing side" lacks positive antecedent basis in the claims.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent no. 5,845,665 to Koehn.

Regarding claim 1, Koehn discloses a winch (Fig. 3) having a rope drum 33 driven by a manual crank 38 for winding up a rope, wherein there is provided a feeler 52 that responds to the direction of entry of the rope if the rope is fully unwound or if the rope is wound onto the rope drum, the feeler 52 being connected to a locking member 43 that coacts with at least one stop 40 if the winding occurs in the wrong direction, the stop being assigned to the rope drum and locking the wrong winding direction.

Regarding claim 4, the feeler 52 is fixedly mounted over the entire length of the drum 33.

Allowable Subject Matter

Claims 2, 3 and 5-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 2, 3, 5-23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 3654

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
